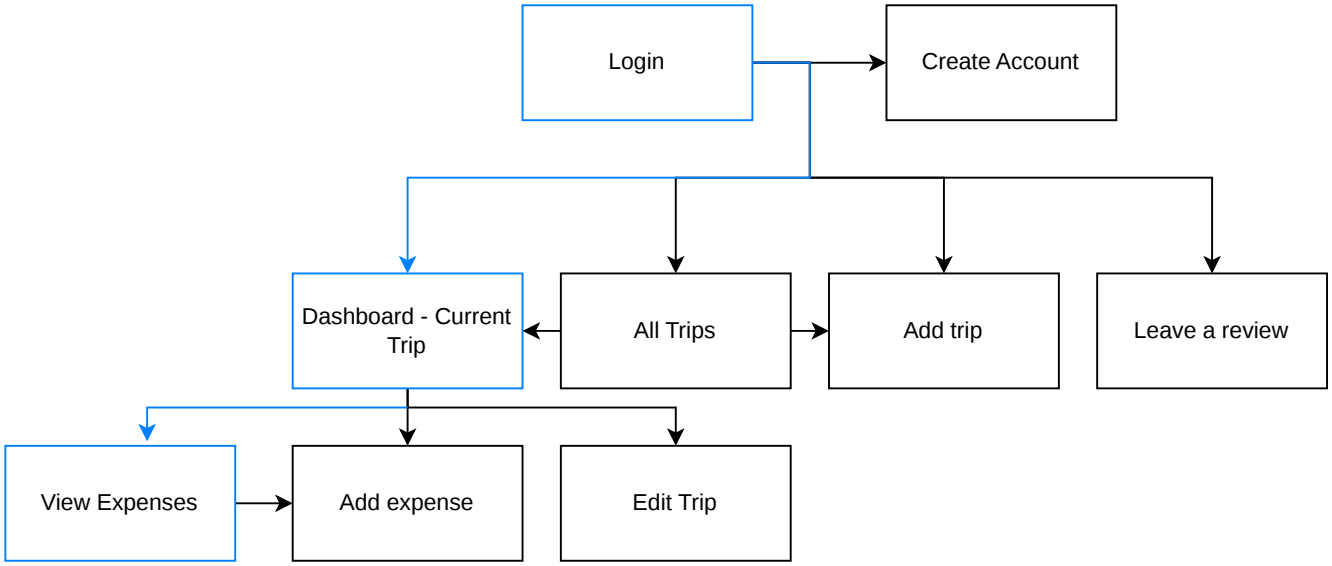
Storyboard

User: Shauna

Goal: Stay organized, track all expenses, see cost breakdown by category, see which category she is spending the most money



When the user logins they will automatically see the dashboard. The dashboard shows their current trip which is determined by the last trip that was clicked on or the most recently added trip.

The user can click the hamburger nav bar to view 'Dashboard', 'All Trips', 'Add Trip', and 'Leave a Review"

On the Dashboard page they can 'Add Expense', 'View Expenses', 'Edit Trip'

Shauna will start out on the login page, then go to her dashboard where she can immediately see her current trip and budget with categorical breakdown. She can then view all her logged expenses by clicking on the button to view expenses.

Navigation Bar

Dashboard	All Trips	Add Trip	Leave a Review

- View Expenses
- Add Expense
- Edit Trip
